1. [] on detail from ORR to FOA, informed me that Governor Stassen has received a letter from Sen. McCarthy asking for a list of foreign merchants engaged in illicit East-West trade with appropriate documentation. He has also requested a list of the additional items of material to be taken off the international proscribed list. Thirdly, he has requested a list of commodities which our allies are now legally exporting to China which they did not export during the Korean war. [] is somewhat concerned lest CIA classified data be supplied Congressional Committees by MDAC, but informs me that if he sees any evidence of same he will let me know. He is concerned not only with the McCarthy Committee, but also the Javits Subcommittee of House Foreign Affairs, which appears to be interested in balances of payments.
